4 Facts About Pro Shops!

Gyms earn **26% of their revenue** from Pro Shop sales.

Keep these revenues in-house! Shopping is fun, easy and most important – will provide customers with that extra motivation needed to hit the gym.

You do not need a lot of space! A good size pro shop is usually between 300 - 500 sq ft, depending on the size of the club - typically less than 1% of the total club.

Location, Location, Location! If clients can see the pro shop every time they enter or exit the building – you got it right!
